Kits for Bitwig Studio install into your Bitwig Library, with pad colors from your categories and up to 7 banks per kit.

Bitwig 6 or above. The kits are built to Bitwig 6's preset convention. Older versions used a different one that couldn't be recreated, so the presets are unlikely to load in Bitwig 5 or earlier.

Pads play one-shot by default. To shape them with the envelope instead, turn on Use ADSR Envelope.
